Reader's Opinions

This is the third book of a trilogy (starting with The Ragged AstronautsThe Ragged Astronauts) and, although it can stand alone, it is probably best enjoyed in context.The story begins on one of a pair of binary planets which share a common atmosphere, thus enabling travel in hot-air balloons between the two. When an airship and its...

In the universe that this book is set it, Pi is exactly three. I think that is about all you need to know about this book.
