# FOUNDATIONS OF STATISTICAL NATURAL LANGUAGE PROCESSING

Statistical approaches to processing natural language text have become dominant in recent years. This foundational text is the first comprehensive introduction to statistical natural language processing (NLP) to appear. The book contains all the theory and algorithms needed for building NLP tools. It provides broad but rigorous coverage of mathematical and linguistic foundations, as well as detailed...

Reader's Opinions

Currently it's a bit tough for me to read because I haven't formally studied logic or statistics... but a well written book
